

Sunbird 7

THE BIRDSEED SPECIALIST

MEDIUM MATURITY GREY STRIPE SUNFLOWER

Key features:

- ▶ Attractive bright stripe sought after by the birdseed market
- ▶ Proven high yielder
- ▶ Very good disease tolerance
- ▶ Reliable under stress
- ▶ Pendulous heads

Grey striped seed

Sunbird 7 produces a large, attractive, grey striped seed which is much sought after by the birdseed market.

High yield potential

Sunbird 7 has a high yield potential which will ensure maximum returns.

Good stress tolerance

The ability to handle a drier season or a tough finish is ensured with the good stress tolerance of Sunbird 7.

Ideal medium maturity

Medium maturity of Sunbird 7 means that it can capitalise on the season and produce top yields.

Very good disease protection

Sunbird 7 has very good tolerance to alternaria and other major diseases of sunflower, which means it is suitable to all recommended planting times in all districts.

Days to flower

S.Qld/N.NSW	67-71 summer 72-79 spring
C.Qld	72 - 74

Recommended established planting populations (plants/ha)

Marginal dryland	20-25,000
Favourable dryland	25-35,000
Irrigation	35-60,000
