

LongReach

Cobra

VIC, SA and SNSW

Now Free to Trade

Please complete the grower registration form - available from our Pacific Seeds Website

KEY FEATURES

- A high yielding early-mid maturity variety suited to upside yielding areas of Southern Australia
- Standout variety in irrigated trials showing significant yield advantage over Chara
- AH classification in Southern and South Eastern Zone
- Good Yellow Spot resistance (MR-MS)
- Sound rust resistance package for Stem (R-MR) and Leaf (MR)
- Stripe rust rating (MS-S) will require some form of chemical protection in the cooler winter period to maximise performance. Cobra has a base level of APR and this may provide some protection in the warmer spring months similar to Wyalkatchem.

BREEDING Pedigree: Westonia/Sentinel

Cobra has been extensively evaluated by the LongReach Plant Breeders technical team since 2007, led by Dr Bertus Jacobs. The line was first entered into National Variety Trials in 2010.

AGRONOMIC FEATURES

Cobra is a early-mid maturing line which is slightly quicker than Scout, Mace and Wyalkatchem. It is a high yielding variety and has shown excellent yield performance, especially in average to above average rainfall years and in irrigated situations. While Cobra has been selected to suit the alkaline soils widely found in SA and VIC, it also shows good yield performance in low pH soils. Cobra has medium length Coleoptiles with good seedling vigour and compact plant height at maturity. Cobra is moderately resistant (MR) to lodging. Cobra is ideally suited to direct drilling systems where management of bulky stubble can be an issue with some varieties. Cobra has shown sound test weight and medium grain size.

Disease and Pest Resistance Ratings: Cobra and commercial varieties

Variety	Disease Ratings							Pest Reaction		
	Stem Rust	Leaf Rust <small>p=provisional to new pathotype</small>	Stripe Rust	Stripe Rust	Septoria tritici	Crown Rot	Yellow Spot	CCN Res	RLN	
			WA pt	Yr17+27+ pt					(Pthornei) Restance	(Pneglectus) Restance
Chara	MR-MS	Sp	MS-S	MS-S	MS-S	S	MS-S	R	MR-MS	S-VS
Cobra	R-MR	MR	MS-S	MS-S	MS-S	S	MR-MS	MS	MS-S	MS

Plant Breeders Rights

LongReach Cobra is protected by Plant Breeders Rights (PBR). In regard to propagating material (planting seed) of this variety, any unauthorised commercial production or reproduction, conditioning for propagation, offering for sale, sale, import, export or stocking of propagating material is an infringement under the Plant Breeders Rights Act 1994. Grower to grower trading of seed of LongReach Cobra is allowed.

End Point Royalty (EPR)

Each time a grower purchases seed of LongReach Cobra the grower agrees to comply with the Variety Licence and Royalty Agreement, including agreement to pay the EPR of \$3.50 per tonne (GST Excl). EPR is payable on all grain production, except on seed retained by the grower for replanting by the grower. The majority of the EPR will be paid by Advanta Seeds to the Breeder (LongReach Plant Breeders) for investment in future wheat breeding programs
