

HALIFAX

Long maturity grain sorghum hybrid

KEY: Rating Scale 1 - 9
1 - Poor
9 - Excellent

HYBRID ATTRIBUTES

Halifax is a long season grain sorghum hybrid offering growers an ideal planting companion to quicker maturing products and spreading the risk when it comes to environmental risks such as heat and drought.

Excellent grain size and yield potential delivered via strong pre- and post-flowering stress tolerance assist in maximising yield potential.

Halifax is suited to both dryland and irrigated cropping scenarios in all key sorghum growing environments and its moderate tillering ability provides flexibility to take advantage of good conditions as they occur.

If you're looking at options to spread the risk this summer, make sure you include Halifax in your plans.

Days to 50% flower

Spring	77-82
Summer	72-78
Central QLD	60-66

Agronomic rating

Midge test rating	7
Seedling vigour	8
Seedling cold tolerance	8
Tillering	6
Standability	8
